

NEW ACT 3.0 - ACTIVE CONTROL TECHNOLOGY

POWERED BY

COMPLETE ATTACHMENT CONTROL

ACT 3.0 supports faster tool changes and better protection of your assets! Allows for quick attachment changes while ensuring **FLOW QUANTITY** and **RELIEF PRESSURE** settings are within specification. Bluetooth and WiFi enabled, ACT 3.0 includes a simple to use Android tablet with preloaded ACT 3.0 app as an operator interface. Store and set work tool parameters for your entire fleet of attachments. The proprietary software, coupled to a robust pressure control system with PID feedback loop ensures the selected pressure setting is the relief pressure; regardless of oil temperature or flow quantity.

- Store up to **100 ATTACHMENTS!**
- Includes HKX user interface tablet.
WIFI & BLUETOOTH ENABLED!
- HKX **ACT 3.0 APP** available on any android powered device.
- Enable/Disable attachments with the use of a passcode.
PERFECT FOR RENTALS!

Set Up: Quick Start Wizard - System set up fast & accurate.

Operation: Simple Intuitive User Interface.

Support: Remote real time diagnostics & instant access to kit installation & parts manual.

Controls:

1. Flow Quantity
2. Pressure Relief Setting
3. Oil Direction (1-way or 2-way)
4. 2 pump flow on/off
5. Custom Configurations available

Benefits:

1. Faster tool changes
2. Correct hydraulic settings =
Reduced Tool Wear
3. Increased safety
4. Increased productivity
5. Reduced labor costs/shop time
